

A quantum leap
beyond a paradigm shift,
Green Light® improves
everything.

Marilyn Schoeman
speaker • author

Greetings!

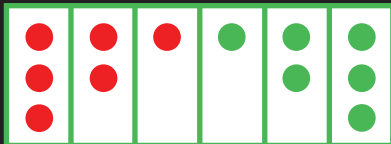

I help people switch Red Lights to Green Lights. I'm Marilyn Schoeman. I'm delighted to introduce you to some of my work. Ever since I experienced the exciting power of creative thinking, I have felt an urgency to promote its potential for powerful, positive impact.

As an author, international speaker and a creativity/business consultant, my goal is to equip people to achieve exciting results. In humorous, interactive and entertaining presentations, they receive new tools, have stimulating experiences and gain lasting take-away value. People rapidly apply the tools in their personal and professional lives. They learn *Green Light*®, a new common language, helping them move forward more quickly. Life-changing, *Green Light* is a specific way to think, speak and ACT to make good things happen.

THE GREEN LIGHT GOAL: CREATE THE GREATEST GOOD, IN THE BEST WAY, FOR THE MOST PEOPLE, FOR THE LONGEST TIME.

Using the *Green Light Scale*™ you can identify WHERE YOU ARE AND WHERE YOU WANT TO BE. *Green Light* helps you GET THERE. With this quick and easy to learn system, you can consciously choose Greener actions and move forward faster. With *Green Light*, you gain *GO-mentum*!

Red Light: the ungood stuff. *Green Light*: the good stuff.

Move up the *Green Light Scale*™ - from 3 Reds to 3 Greens
- toward Ideal outcomes.
